

## SAFEMA: EDUCATION HUBS FOR EXCELLENCE IN MIDWIFERY"

### Covid-19 response

The outbreak of COVID-19 pandemic has challenged health systems and public authorities worldwide at all government levels, creating a global emergency situation. Taking into consideration that SafeMa project aims to generate and spread excellence in midwifery education and research, after a consultation with the project local partners, a number of Webinars have been developed, related to the pandemic and its effects in midwifery:

- Title: Diagnosis of COVID-19 infection in a pregnant woman / Pregnancy Follow Up
- Title: Childbirth and breastfeeding in women with Covid-19 infection
- Title: Protective measures for the medical and nursing personnel during the pandemic CoVID-19
